27 responses

11. For quality upgradation in Higher Education Institution, the present accreditation process by NAAC is necessary.

27 responses

12. Overall feedback

27 responses

Good

Satisfactory

No

Lacking behind in laboratory infrastructure, College entrance is not properly maintained, Bathroom is not properly maintained, need computer laboratory for Mathematics department. Separate reading room required for Teachers in library. Should act strictly against "gutkha".

Wash room & class room should be clean on regular basis. Computer lab is required for Mathematics dept. & computer facilities should be available for students in library. Need to have separate cabins with adequate facilities for all faculty members. Like other colleges we also should have a common Big LED TV for faculty members & staff. Sports & Gym facilities should be upgraded. LAN facilities should be given to all faculty members. If possible a well maintained garden is required within the college campus.

-

Reforms required in Administrative Management with respect to e-governance.

The college needs more ICT tools

To be an effective teaching-learning process in the College there must be a strong cooperation among students, teachers, administration and society.

Satisfactory

Satisfactory.

More classrooms required

Nice. We will give our 100% to overcome the problems.

ok

There should be an option for Faculty strength regarding course load and duty load in the form.

Our institution has been working tirelessly to upgrade the higher education sector of the locality by providing quality education to the needy and by doing so, it is significantly contributing to the overall development of the locality.

Laboratory set up is not satisfactory. More of laboratory instruments and chemicals needs to be purchased. Interruption of Water supply needs to be addressed. Chemical waste disposal system needs to be arranged. One desktop needs to be given for official works. Otherwise We have a Chaos free environment which helps us to work peacefully. This needs to be maintained.

Laboratory set up is not up to the mark, absence of sufficient laboratory equipments and chemicals, interruption of water supply facility in the laboratory, absence of proper chemical disposal system. Overall, we have a nice working environment in the college and a good teacher-student relationship in the department.

Lab set up is not up to the mark. Lab apparatus and instruments are not of analytical grades. Interruption of water supply in lab. Overall the workplace provides positive work environment.

Need to be discussed...

The college being situated in a rural area has both challenges and opportunities and is progressing well in its objective of imparting higher education to the economically backward sections of society.

College Infrastructure and campus development are very poor.. good quality college playground , college entrance gate, students common room, faculty common room, indoor sports room etc are required... college Toilet are very dirty and unhygienic..

Concluding Remarks:

The feedbacks received from the teachers provide a clear view of their satisfaction with the academic environment of the college. However, 14.8 % teachers disagree that the college classrooms are clean and hygienic. Also, 12.5% teachers report that the laboratory infrastructure is inadequate to carry out all the laboratory experiment. Further, concerns have been shown on improvement of various infrastructures such as library, computer laboratory, ICT tools, faculty common room, college entrance gate, etc.
