Counselling Report of the student feedback

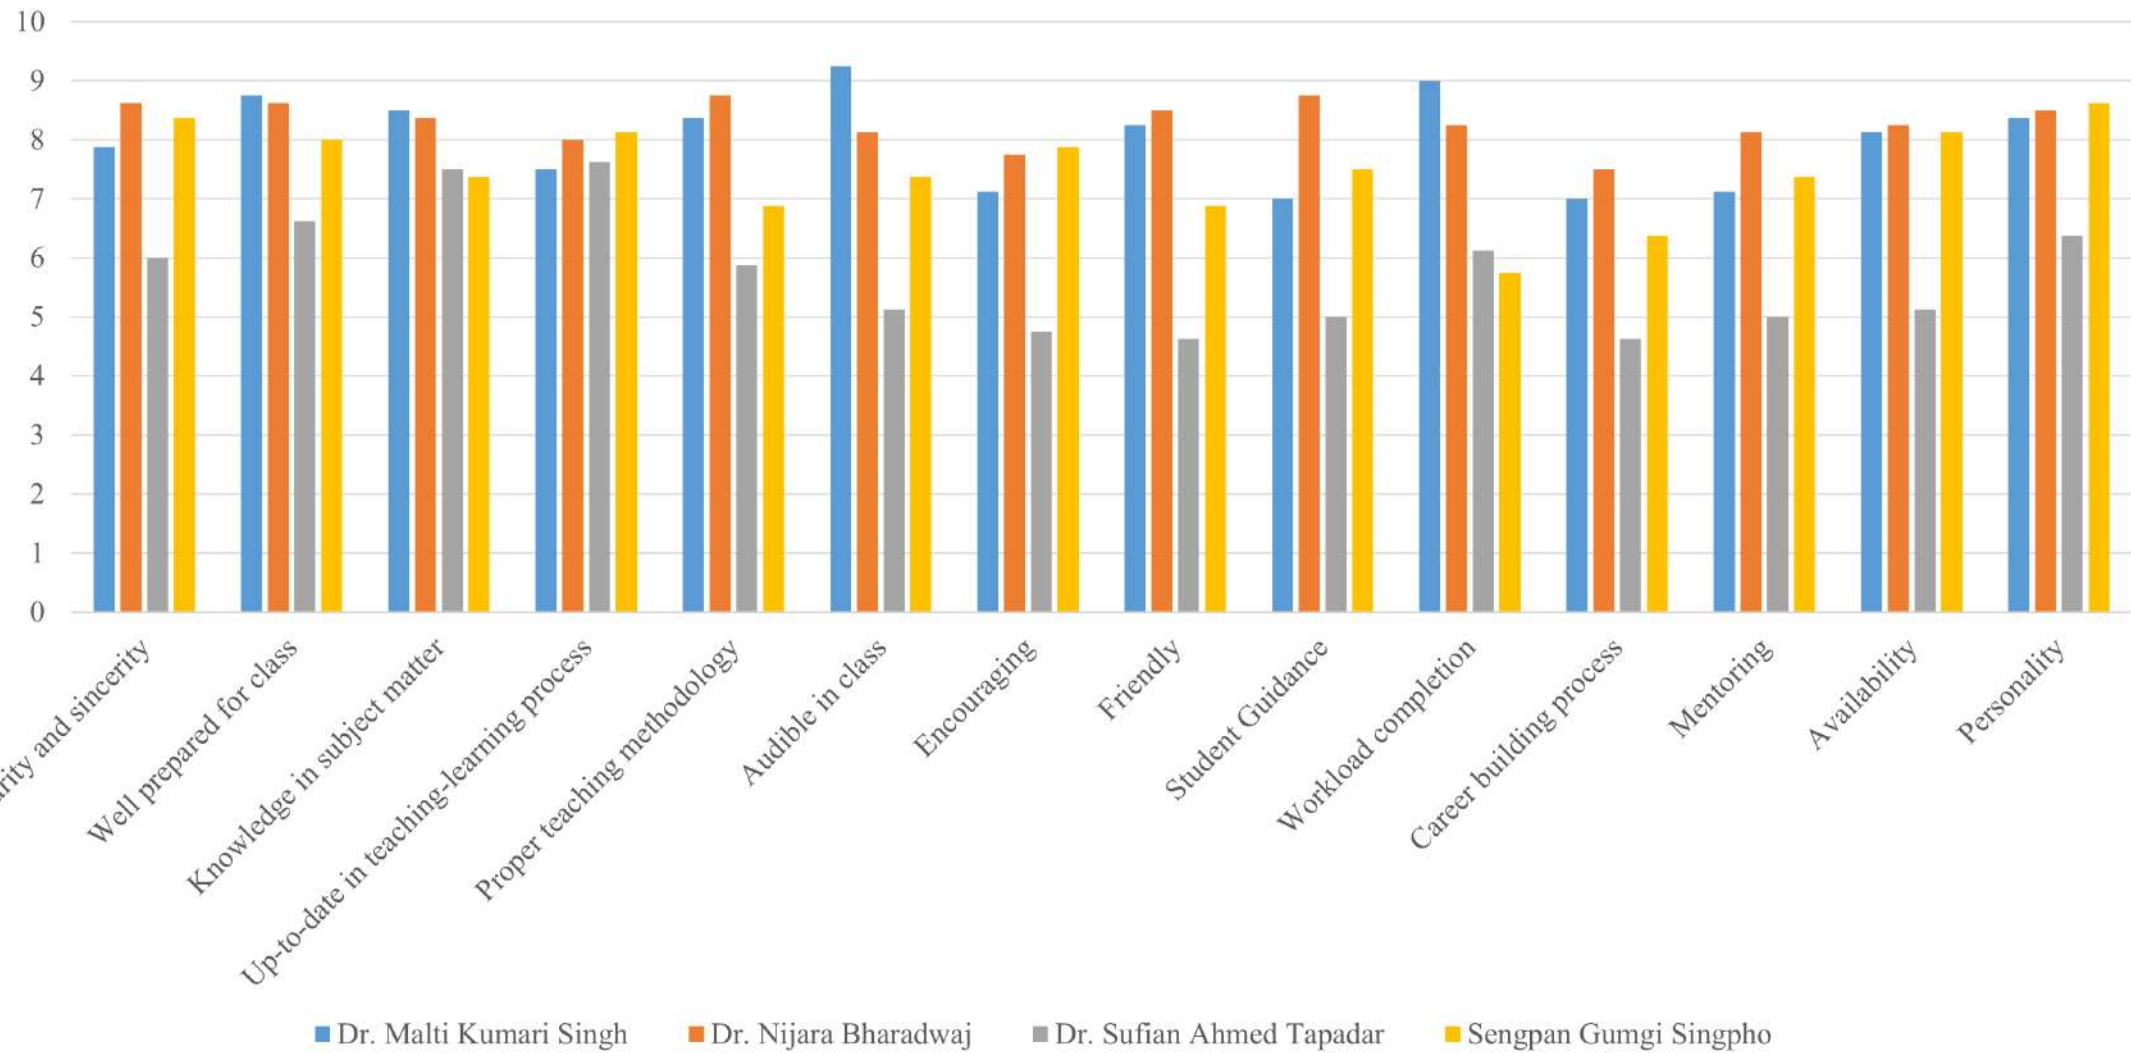

Student feedback is one of the key indicator for institutional academic audit. For all round development, continuous feedback is inevitable. Keeping these views in mind PDUAM, Dalgaoon is also trying to get students feedback for the academic session 2020-21 from the major students of 5th Sem individually in hard copy format. There are 14 questions asked to the students and their responses have been taken in numerical score of several scale i.e. poor to extraordinary. After getting feedback score from the students, a mean value for each question have been calculated. The teacher those having score level (mean value) below the excellent and extraordinary are informed and advised to improve the same from the next session.
