

STUDENT FEEDBACK REPORT

2023-2024

**Name of College: PANDIT DEENDAYAL UPADHYAYA ADARSHA
MAHAVIDYALAYA DALGAON**

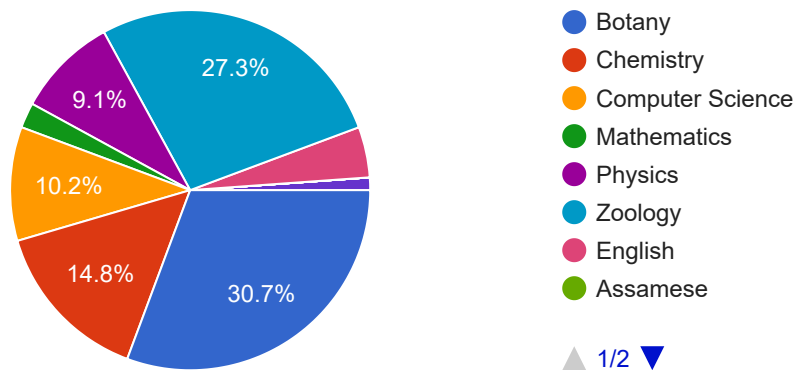

The College Feedback Committee conducted a survey to gather student feedback on various aspects, including the syllabus, teaching-learning process, infrastructure, and more, based on their experiences at Pandit Deendayal Upadhyaya Adarsha Mahavidyalaya Dalgaon. The survey was held from 11th to 17th December 2024 via a Google Form. An online questionnaire consisting of 12 questions, with a final question asking for overall feedback, was shared with students. A total of 88 undergraduate students from the B.Sc. and B.A. programs participated in the survey.

The findings of the survey are presented below:

Good

Good

Agree

Agree

All the respected teachers are good. They connect with the students in a friendly manner. And all the facilities provided by the college are good, except a few, (like drinking water, clean and hygienic washroom and less cleaning).

Teachers are Good but attitude like Prime Minister

1.We need minerals water for drinking.
2.The classrooms should be clean by worker and make hygienic and Teachers should be uses ICT tools for enhanced teaching and learning methods at class room.

Yes

Great

xxx

Well done

Just need to improvised the laboratories nd infrastructure of the college..

This institution is overall good for higher education

Overall the college, teaching methods and teachers all are better

Best

Need to improve

Everything ok

Your teaching style is admirable.

May be waste

3-Strongly agree

Thanks you so much our PDUAM Teachers

Some of my opinion wrt above statement -

- 1.The class rooms are not cleaned..so many tobaccos substance mixed with wall
- 2.Some teachers are just awesome..but some teachers have lack of patience.. I think they need to learn how to behave with students.

10/10

Good teaching process

I am Halima khatun student of BSC 3rd semester of your reputed college .

- 1.Teachers provide learning resources/ teaching materials/ class notes.
- 2.Teachers are up-to-date and have knowledge about the subject matter being taught in class.

The quality of the classes are very good and engaging. The teachers are supportive and friendly,they provide guidance for both academics and other matters. However, many of laboratory equipments do not work properly so it causes much problem for practicals. Also the lack drinking water supply is something that bothers most of the students.Thank you.

Nice

Overall, I had a great learning experience in this course. The instructor's teaching style was engaging, and the course materials were well-organized. I appreciate the opportunities for discussions and feedback. Thank you for a valuable learning experience!

- 1.We need minerals water for drinking.
- 2.The class rooms should be clean by worker and make hygienic and teachers should be uses ICT tools for enhanced teaching and learning methods.

Skill knowledge is very poor and not provided to any motivation class.so my request to give the opportunity to learn about different types of skill.it is my humble request.

All Ok

.

- 1.teachers are always available for students
- 2.teaching process are very active
- 3.classroom, teacher are always sincere for everyone

Strongly agree

Best

All are oky

I would like to say that this is overall good 👍

10/13

Good 👍

Ok

Laboratories equipment and infrastructure can be further improvised...

The college has provided me with a comprehensive and engaging learning experience that has significantly contributed to my academic growth.

Teachers are sincere in their classes

We don't have proper water supply in our laboratory. That is big issue for us and also need some new instrument for our practical which are unavailable in botany laboratory. And the last we facing drinking water problem.

Excellent

A good teaching in our department usually understood all our classmates.

Teacher's are sincere in their classes

We need more than one organic chemistry teacher.

In our department i am thankful for our teachers for their guidance and support .

College is great..But In mathematics we face difficulties due to shortage of maths teachers.

Nope

While the department has potential, there are several areas that need improvement. Communication with students is inconsistent, and course materials often lack clarity or relevance to current industry standards. Faculty availability for support is limited, and administrative processes are slow and sometimes disorganized. Enhancing these areas would greatly improve the student experience.

The classrooms should be clean by worker and make hygienic and Teachers should be uses ICT tools for enhanced teaching learning and should provide drinking water .

Overall feedback is good

Very Good

Excellent

1. Teacher's are good they teaching well but some teachers have lacks of knowledge.
2. Haven't proper mentor.
3. Lack of laboratory equipment.
4. Lacks of knowledge of some teachers
5. There is no discipline followed in the clg office during admission time or form fillup time .

Well.

I am glad to provide you with my feedback about the College is that this college provide me with a number of opportunities to grow and explore my skills

Everything is alright

We need some books in library.
Need laboratory instrument.

Very good

Every things are partially ok

Excellent work! Your dedication and perseverance have paid off, and your progress is impressive. Keep up the good work and continue to strive for excellence.

All are excellent , every thing is perfect

Concluding Remarks:

The feedback from students provides valuable insights into their satisfaction with the college's academic environment. However, 11.4% of students disagree that the classrooms are clean and hygienic. Additionally, 9.1% feel that the laboratory infrastructure is inadequate for conducting all required experiments. Around 5.6% of students express dissatisfaction with the use of ICT tools by teachers, while 4.5% report that teachers do not offer adequate mentoring or guidance on academic or other matters. Lastly, students has raised concerns about the limited number of books in the library and the lack of clean drinking water on campus.
