

TEACHER FEEDBACK REPORT

2023-2024

Name of College: PANDIT DEENDAYAL UPADHYAYA ADARSHA MAHAVIDYALAYA
DALGAON

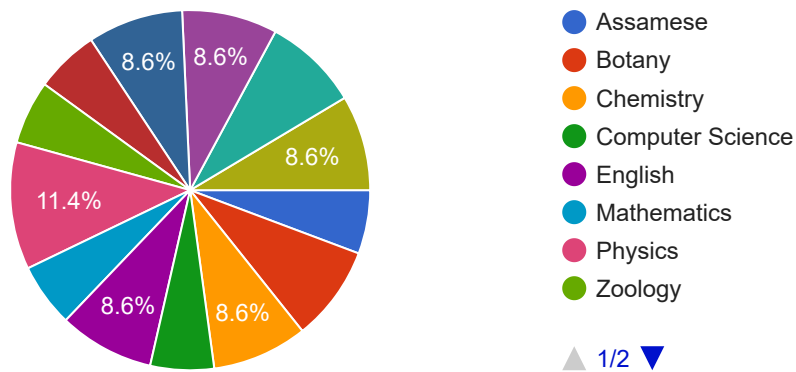

A survey was conducted by College Feedback Committee to collect the feedbacks of the college teacher on various aspects such as syllabus, teaching-learning process, infrastructure, etc. based on their experience at Pandit Deendayal Upadhyaya Adarsha Mahavidyalaya Dalgaon. The survey was conducted from 11-12-2024 to 17-12-2024 through feedback using Google form. An online questionnaire was provided to the teachers which had a total of 11 questions and final question asking about their overall feedback. All the faculties provided their valuable feedback on the above mentioned aspects.

The finding of the survey is presented below:

Good

Satisfactory

Good

The college needs more infrastructure development and larger pool of students from varied background.

NA

Infrastructure in terms of classrooms and availability of books in library should be improved for better academic transaction

Overall Infrastructural improvement is recommended.

Infrastructure improvement needed, more books and materials needed in the library.

It is still better than nothing.

Adequate infrastructure is required for Arts Departments to establish and run the departments in a more functional manner.

.

Average

Infrastructure needs to be improved.

The university syllabus can be revised to better equip students for exams like the NET and future competitive exams. Additionally, increasing the number of students may negatively impact the quality of teaching, as a high student-to-teacher ratio can be inefficient. Furthermore, the infrastructure could be improved to enhance the delivery of lessons by teachers.

The institution demonstrates a commendable commitment to academic excellence, professional development, and creating an inclusive learning environment.

Good.

It has been a year since I joined the institution as a new faculty member. While I find most aspects of the institution to be satisfactory, one thing that stands out is the competitive

atmosphere among colleagues, rather than a sense of camaraderie. That said, there are many individuals here whom I hold in high regard. Overall, I greatly appreciate the various positive aspects of our college and am optimistic that the completion of the new Arts Building will further enhance the teaching-learning environment, making it even more fruitful and inspiring.

*As a constituent college under Guwahati University, there are several key areas that require attention and improvement from the University. Most importantly the regulatory issues and result process of Guwahati University need to be revised for the benefit of students.

*There is a shortage of staff in the college's administrative area, which affects the efficiency of a healthy work environment.

* Cleanliness and hygiene require more attention.

The College provides a strong foundation for both educational and Coeducational learning. The faculties are also provided a good work culture environment for our professional development. Most importantly the freedom to work provided by Principal of this college is praiseworthy.

The college needs infrastructural development as it can improve the quality of education.

A lot has been achieved in the last five years with everyone's effort. We (the new arts faculties) look forward to everyone's cooperation and support to continue to contribute to the students lives and the college in the coming future.

All the departments should be equipped with a desktop for maintaining records. A separate computer lab for Mathematics to learn application in different areas. Library should be equipped with more books to develop study culture as it seems that students don't read books.

Department of Arts Faculties are not available yet for which we face so much difficulties to keep our documents properly.

PDUAM Dalgaon family is growing

Need to upgrade the computer laboratory at the earliest. Also, ICT enabled classrooms to be increased.

Addressing an issue is more necessary rather than nullifying an issue.

I think HEI's main motto should be building of proper human resources. It is not at all necessary to consider or proceed any plan that may effective or fruitful from NAAC perspective only.

More sweepers are required to clean the classrooms and toilets on regular basis.

There are various limitations in the college. However, despite these limitations, the college administration and teachers have been fulfilling their responsibilities to ensure that the true purpose of providing quality higher education is served.

Some measures must be taken to motivate students to be regular in their classes and proper infrastructure is required like proper generator during power down time to be used, clean washroom for faculties and students and drinking water facilities must be upgraded

Concluding Remarks:

The feedback from teachers provides valuable insights into their satisfaction with the college's academic environment. However, 11.4% of teachers disagree that the classrooms are clean and hygienic, and another 11.4% disagree that students are regular in class. Additionally, 5.7% feel that online attendance is not effective, while 3.2% report that the laboratory infrastructure is insufficient for conducting all required experiments. Furthermore, teachers have expressed concerns about the need for improvements in various infrastructures, including the library, computer laboratory, ICT tools, and faculty rooms. Many faculty members have highlighted the lack of adequate infrastructure for the arts faculty, as well as the need for almirahs and desktops in the department. There is also a demand for a generator, more sweepers, and better access to drinking water.
