FOUR YEAR UNDERGRADUATE PROGRAMME (FYUGP) COURSE STRUCTURE

The Four-Year Undergraduate Programme (FYUGP) of PDUAM, Dalgaoon under Gauhati University is as per UGC's Curricular Framework, published in November 2022. The course structure of FYUGP is built on the Choice-Based Credit System (CBCS). In the FYUGP, one has choice to exit from the programme thrice – after one year, after two years, and after three years. If one exits the programme after one year, one gets a certificate. If one exits after two years, one gets a diploma. If one exits after three years, one gets a Bachelor's Degree. And finally, if a student completes the whole 4-year, one gets a Bachelor's Degree (Honours).

If a student exits the FYUGP after 3 years, s/he will need to take admission into the first year of a Master's programme, which is a 2-year degree programme. However, if a student fully completes an FYUGP, s/he needs to take admission into the second year of a Master's programme and needs to complete only one year to get a Master's Degree. Under CBCS, there was no such pathways.

Once a student takes admission into a Master's programme either after 3 years of the Bachelor's programme or after FYUGP, one will be able to take admission into a Doctoral programme leading to the Degree of PhD. However, if a student is exceptionally good, one can directly take admission into a Doctoral programme right after the FYUGP, bypassing the Master's programme.

FYUGP Progression

The progression and multiple exits during the whole course structure is given below.

After 1 Year

One can exit just after one-year. In this case, the student will have to complete one extra Vocational / Skill course (Exit Course) of 4 credits and can exit the programme. The student will get a Certificate. The minimum total credit requirement is 44 (and 4 credit extra for the exit Vocational course).

After 2 Years

One can exit the programme after two-year course as well. In this case, the student will have to complete one extra Vocational / Skill course of 4 credits and can exit the programme. The student will get a Diploma. The minimum total credit requirement is 88 (and 4 credits extra for the exit Vocational course).

After 3 Years

If a student completes 3 years, she/he can exit the programme. In this case the student will get a Bachelor's Degree. The minimum total credit requirements is 120.

After 4 Years

After completion of 4 years, the student gets either a Bachelor's Degree (Honours) or a Bachelor's Degree (Honours) with Research. The minimum total credit requirements is 160. It should be noted that any certificate / diploma / degree is awarded only if the student clears (i.e. passes) all the required courses (papers) till that point of time.

N.B.: Every student who wants to exit before 3 years into the programme, MUST complete an additional Vocational Course of 4 credits.

COURSE STRUCTURE

The FYUGP is designed to offer Bachelor’s Degree to the students. The whole FYUGP is divided into two parts – **Core Courses** and **Common Courses**. The minimum credit allocation for a 3-year programme is 84 credits in core courses and 36 credits in common courses, which comes to a total of minimum 120 credits for a three-year programme. A student can earn up to maximum of 132 credits in a 3 – year programme using optional free credits of 12 (4+4+4).
